

NAC_{N-acetyl-L-cysteine}

Powerful Anti-oxidant

Boost your immune system...

N-acetyl-L-cysteine is a naturally occurring amino acid which the body cannot produce, hence essential in our diet. It is more stable than cysteine, making it an excellent dietary supplement. It has been scientifically proven that NAC not only acts as a powerful antioxidant itself but also boosts the body's natural antioxidant system, offering enhanced protection from harmful free radicals. It neutralizes toxins and promotes healthy liver function, and its ability to neutralize cell and DNA damaging free radicals can help slow down the aging process, enhance resistance to common ailments like the flu, to more serious conditions such as HIV infection, cancer and heart disease. It is especially beneficial for active people, the elderly, cigarette smokers and those exposed to stress and pollution.

Suggested use:

As a dietary supplement, take 1-2 capsules with water or your favorite beverage, 1-2 times daily or as directed by your physician.

Supplement Facts:
