

ARS - DETOX

Nutritional Support for Combating Arsenicosis

More than 137 million people in the world are being unknowingly exposed to unsafe levels of arsenic in their drinking water. Widespread Arsenic contamination of ground water has lead to colossal epidemic of arsenic poisoning in Bangladesh. Arsenic has been specified as a known human carcinogen causing skin and lung, kidney and bladder cancer.

Viola Vitalis, Bangladesh together with Allium Vitalis in Berkeley, USA has developed nutrient based formulation for arsenicosis management: **Arsenicure** for treatment of external symptoms and **ARS Detox**, a capsule formulation to neutralize the accumulated arsenic inside the body.

Purpose: Arsenicosis is defined as a chronic health condition arising from prolonged ingestion of arsenic above the safe level. After absorption, inorganic arsenic accumulates in the liver, spleen, kidneys, lungs, and gastrointestinal tract. It is than rapidly cleared from these sites but leaves a residue in keratin-rich tissues such as skin, hair, and nails.

ARS-Detox is a protein dietary supplement that provides nutritional support for the natural pathways for arsenic detoxification and elimination from the body. During natural detoxification, inorganic arsenic is

converted to organic form and is excreted from the body. This process requires biothiol glutathione that are depleted in people exposed to arsenic. ARS-DETOX assists in the biosynthesis of glutathione, thereby supporting the natural pathways for arsenic detoxification and eradication.

Active Ingredients: Garlic Oil, Whey Protein

Recommended Dosage: 6 capsules per day (2 capsules with each meal) or as recommended by physician.

Indication: Administration is by oral route only.

Storage: Store in a cool and dry place, keep out of reach of children.

Side Effects: There are no known adverse effects. Patients with history of gastritis should use it less frequently.

Product patented and manufactured under license from Allium Vitalis, Berkeley, CA, USA. US Patent No. are: 7678833 B2; 8217084 B2 and 8222299 B2..
