

# DermaCare

## Therapeutic Antioxidant Lotion

Contrary to popular belief, antioxidants are not just good preventive care for the internal organs; they also work to protect the skin from damaging effects of free radicals and harsh external environment. **DermaCare** is such an antioxidant lotion developed to provide first line of defense against free radicals as well as to provide relief from inflammation and skin infection while leaving the skin soft and supple.

**Active Ingredients: Onion Oil, Aloe Vera and Lanolin.**

All ingredients in this lotion are classified as GRAS (Generally Recognized As Safe) by US-FDA.

Although some antioxidants (such as Vitamin C and Vitamin E) have been extensively researched in the past, little was known about the role of onion oil as a potent class of antioxidant. Experiments conducted by Allium Vitalis, Viola Vitalis, The Plant Bioactives Research Institute (Orem, UT) and Presque Isle Cultures (Erie, PA) have confirmed that the membrane permeable mercaptans, a constituent of onion oil, has antioxidant, anti-inflammatory and anti-microbial property and have demonstrated their various uses for personal health care. Aloe Vera and lanolin in

the formulation aids in deeper penetration into the skin and adequately moisturizes and hydrates the skin which decreases itching and formation of eczema.

### Benefits of DermaCare:

- General purpose skin antioxidant lotion with anti-aging properties
- Nourishes and moisturizes sun-burnt skin
- Rapidly eliminates the pain and itching associated with insect bites, poison oak and minor skin burn
- Avoids the triggers of itching

**Directions for usage:** To be applied externally thrice a day or as recommended by the physician.

**Storage:** Store in a cool and dry place away from direct sunlight. Keep out of reach of children.

The product is patented and manufactured under license from Allium Vitalis, Berkeley, CA, USA.

Patent no: US7678833, US8217084, US8222299
